

The DataBank Way

1. Listen, Learn and Understand

To find you the best possible solution, we'll conduct a survey session to gain a deep understanding of your current operations and challenges.

Solution Consultant / Architects

2. Solution Validation and Partnership

We'll document our findings and propose a solution option. Once you choose the option that fits you best, we will begin to develop a specific project plan and timeline and offer up an agreement.

6. Client Engagement Continues

Your dedicated Account Manager will stay in contact to ensure your solution is exceeding expectations and assist you with planning future improvements if needed.

Customer Success Team / Account Manager

Simplifying Business Processes

3. Solution Design

We'll engage you in a thorough exploration of your processes and tailor the solution to perfectly align with your needs.

Project Manager / Professional Services

5. New Process Deployment

Your solutions goes live, enabling you to more easily manage your workloads, increase productivity and better achieve your goals!

4. Solution Adoption

We'll work closely as your partners to ensure your solution fits in seamlessly with your workflow and staff is trained and knowledgeable.
